

Patient Navigation

Individual support to help you navigate your cancer experience

Lori Dean, RN
Cancer Care Navigator
phone: (504) 897-7014
email: lori.dean@touro.com

Patient navigation helps you overcome barriers to making informed decisions about your care. This program, offered through the Supportive Cancer Care Center, is available to Touro patients at no cost.

Some ways patient navigation can help you are:

- Understand your cancer diagnosis
- Explore treatment options
- Assess you for supportive care needs
- Locate financial resources
- Provide you with support and encouragement throughout treatment
- Serve as a “go to” resource when needed

No matter if you are newly diagnosed or already receiving treatment, patient navigation can help. To schedule an appointment with Touro’s Cancer Care Navigator, contact **Lori Dean, RN** at **504-897-7014**.
