## Jokes

On the way home from their 50th wedding anniversary celebration, the wife notices a tear in her husband's eye and asks if he's getting sentimental because they're celebrating 50 wonderful years together.

He replies, "No, not really.

"I was remembering the time right before we got married when your father threatened me with a shotgun. He caught me kissing you, and you were still 17 at the time, and I had just turned 18. He told me he would have me thrown in jail for 50 years if I didn't marry you, and he scared me half to death, so of

course I married you.

"I was just sitting here thinking... tomorrow I would've been a free man!"
